CHAPTER 1: INTRODUCTION TO INDUSTRY LINKAGE FUND

1.1 DEFINITION OF INDUSTRY LINKAGE FUND

MREPC Industry Linkage Fund is a grant provided by the Malaysian Rubber Export Promotion Council (MREPC) to allow universities and research institutions to collaborate with the Malaysian rubber products industry on research projects that will increase Malaysia’s exports of rubber products.

1.2 OBJECTIVE OF INDUSTRY LINKAGE FUND

The main objective of the MREPC Industry Linkage Fund is to strengthen rubber industry-university/research institution linkages in Malaysia for the development of the rubber products industry in order to enhance the industry’s competitiveness in the global market.

1.3 RESEARCH PRIORITY AREAS

a. The MREPC Industry Linkage Fund will give priority to projects that have the potential to improve the competitiveness of Malaysian rubber products in the global market. Focus areas and products for research are as follow:

   i. Latex based products;
   ii. Dry rubber products;
   iii. Automation and process improvement; and
   iv. Application of rubber in infrastructure and construction.

   Note: Details of research priority areas as in Appendix I: Table 1.

b. Project to be carried out must be beneficial to any CESS paying rubber product as listed in Appendix II: Table 1.

1.4 ELIGIBILITY CRITERIA

a. The application is open to all individuals who are employed on a permanent or contractual basis with the following organisations:

   i. Public and Private Institutions of Higher Learning;
   ii. Malaysian Research Institutions; and
   iii. Registered Industries in Malaysia.

   Note:
   - Expatriates working under contract with any of the above institutions are eligible to apply. However, the project must have a permanent Malaysian co-researcher from the same institution, well-versed with the project, to ensure its completion in the event the expatriate’s contract is terminated.
   - The service of a contract researcher must be valid during the period of research proposed and contractual documents must be furnished as proof of employment for the period.
b. Researchers can lead only one (1) project at any time. The researchers/project leaders are required to submit a Final Project Report, before submitting a new application.

1.5 SELECTION CRITERIA OF THE PROJECT

An Industry Linkage Fund Committee appointed by MREPC will assess all project proposals based on the following criteria:

a. **Scientific and technical merit:**
   The project must be scientifically sound, technically feasible with achievable milestones, and has the potential for further development and commercialisation.

b. **Research competence:**
   The research team must have the knowledge and competency to carry out the project successfully to completion.

c. **Innovativeness of the research:**
   The project must indicate whether it is recombination, fusion, integration, replication or refinement of existing technologies with improved value, enhanced efficiency or cost reduction. Applicant must conduct a Prior Art Search to verify on the patentability aspect.

d. **Clear and measurable expected output:**
   The project must be clear, accurate and consistent with the objective of Industry Linkage Fund. The project must also describe appropriate methodologies and the type of output expected which benefits to the rubber products industry.

e. **Project with proven concept or prototype (pre-commercialization):**
   The project must have proven concept which ready for commercialization to test the market. The project must theorise a technology solution to a problem and have a reasonable basis that there is a market opportunity. The theory must be ready to test by building something that is only advanced enough to prove that the concept can work.

1.6 SCOPE OF FUNDING

a. All research projects are required to have an industry collaborator to be eligible for the funding. There are two (2) types of grants:

i. **Full grant awarded to projects which will offer an industry-wide solution.**
   The project shall be proposed and led by university/research institution and an industry partner is required to be sourced to provide support for the project.

ii. **Matching grant awarded to projects which will benefit individual companies.**
   The project shall be led by the industry (rubber products companies) with experts assistance from university/research institution.

   **Note:**
   - For full grant, the project leader is required to name an industry partner and specify the role of the industry partner in the proposal.
• A proposal without an industry partner is still acceptable. During proposal evaluation stage, MREPC will assist in identifying potential industry partner. However, the ILF Committee will decide on a suitable industry partner for the project.
• On the application for a matching grant by the industry, the ILF Committee can decide to award the research projects with a full grant if it is deemed appropriate.

b. The quantum of fund approved is according to the project proposal. The maximum fund for each project (under full grant and matching grant) shall not be more than RM 300,000.

c. The funding can be utilised for the following categories of research expenditure.

i. Wages and Allowances for Temporary and Contract Personnel
ii. Travel and Transportation
iii. Rentals
iv. Research Materials and Supplies
v. Minor Modifications and Repairs
vi. Special Services such as consultation and sample testing and analysis.
vii. Prototype Development

**Note:**
• For full grant, the allocations for wages and allowance, travel and transportation, and rentals shall not be more than 50% of total project cost.
• For matching grant, there will be no limit set on the allocations of each category, and it shall be according to research proposals submitted by the companies/researchers.
• For matching grant, the company is required to indicate the categories of expenditure to be financed by the company.

d. The costs of patent filing and registration are not within the scope of the Fund.

1.7 LOCATION OF PROJECT

The research project must be carried out in Malaysia. However, researchers are allowed to conduct testing and consultation overseas, with prior approval from the Committee.

1.8 PROJECT DURATION

a. The project duration shall not be more than three (3) years from the date of project commencement.

b. Researchers are required to provide the following information throughout the project duration.

i. To submit quarterly reports, i.e. project progress report and financial report to the Secretariat for review by the Committee.
ii. To give a presentation on interim and final research findings to the Committee. Presentation of interim is a mid-term review of project duration.
iii. To submit a complete project report to the Secretariat for review by the Committee.
1.9 RESPONSIBILITY OF THE PROJECT LEADER

The successful implementation of the project is the responsibility of the project leader. Project leaders shall ensure that the projects are carried out effectively to meet the specified objectives and milestones of the projects within the approved timeframe and funding.

1.10 RESPONSIBILITY OF INSTITUTION

The Institution shall be responsible for the project leader’s research conduct to ensure that the research is undertaken in accord with the highest standards of research integrity. It shall assume the responsibility for the research until its completion.

1.11 THIRD PARTY COLLABORATIONS

The institution may undertake work on the project in collaboration with a collaborator. However, collaborators are not entitled to receive (directly or indirectly) any part of the Fund.

1.12 REQUEST FOR VARIATION TO THE AWARDED GRANT

Request for any variation on granted Fund must be made three (3) months before the end of the project term. The Committee reserves the right to reject any additional expenses incurred without prior approval.

1.13 VIREMENT IN PROJECT COSTING

Request for any virement within project costing from the approved proposal must be made three (3) months before the end of the project term.

Note:
• No fund may be vired between categories without the approval of the Committee.
• No virement should be made where it would result in over expenditure.

1.14 PROJECT EXTENSION

a. Requests for project extensions must be made in writing by the Project Leaders for approval at least three (3) months before the project completion date. The requests for extensions must be accompanied by appropriate supporting evidence.

b. Applications for project extension received after the project completion date will not be considered.

c. The maximum duration of extension is six (6) months including the submission of the Final Project Report.

1.15 NOTIFICATION OF RESULTS

The results of applications will be notified to applicants within 14 working days after the convening of the quarterly Committee meeting.
1.16 ACCEPTANCE OF OFFER

Applicants must accept or decline the offer within **14 working days after receiving the Notification or Letter of Award.**

1.17 INDUSTRY LINKAGE FUND AGREEMENT

The Project Leaders are required to sign the Industry Linkage Fund Agreement within **thirty (30) working days** upon acceptance of the approved projects, failing which the Committee has the right to revoke the approval.

1.18 INTELLECTUAL PROPERTY RIGHTS

a. IP generated from research projects under full grant, if any, shall be owned by MREPC which will make it available for open access by eligible members of the rubber products industry. This is to ensure the projects carried out will benefit the industry.

b. IP generated from research projects under matching grant, if any will be given an exclusivity period between three (3) to five (5) years before it is available for open access.

1.19 PUBLICATIONS

Upon project completion, researchers can publish the results of their projects in local and renowned international publications. Approval from the Committee is required prior to publishing the results.

**Note:**
- The contribution of MREPC as the fund provider must be acknowledged at all times in all forms of publications.
- Researchers are required to submit one (1) copy of all research papers/journal to MREPC upon their publication.

1.20 QUARTERLY FINANCIAL REPORT

Each Project Leader is required to submit to the Committee a Quarterly Financial Report together with the progress report and findings of all approved projects in a digital file (excel format) as in **Appendix III: Table 1.**

**Note:** All reports are private and confidential. The Committee may conduct an audit check on the amount spent by the researchers, as reported in the Quarterly Financial Report.

1.21 CHANGE OF PROJECT LEADER

If a Project Leader/Team Member intends to resign, retire or move to another organisation, he/she must inform the Committee and recommend suitable replacement within the same institute for approval. The new Project Leader/Team Member must have the necessary expertise and experience to lead the project.
1.22 TRANSFER OF GRANTS BETWEEN ORGANISATIONS

If the project leader wishes to transfer and bring along his/her project to another organisation, it is allowed on condition that both parties agree to it by signing a written agreement. The receiving organisation must be eligible to be an Industry Linkage Fund recipient. The project must be carried out in line with the original scope approved.

If either one party does not agree to the agreement, the Committee will terminate the project and any unspent funding shall be returned to MREPC.

**Note:** All research findings either completed or incomplete project shall belong to MREPC, as specified in the Industry Linkage Fund Agreement.

1.23 TERMINATION

Projects can be terminated based on the following:

i. Any false reporting by the project leader;
ii. Any misuse of the grant provided;
iii. Non-performance in terms of progress such as incompletion of milestone;
iv. Variation of scope of project without getting prior approval from MREPC; and
v. No suitable project leader as a replacement for the original recipient institution/organisation in cases as in 1.18 and 1.19.

**Note:** Unspent fund shall be returned to MREPC.
CHAPTER 2: PROPOSAL APPLICATION AND SUBMISSION

2.1 INDUSTRY LINKAGE FUND PROCESS FLOW

The project approval process as shown in Figure 1.

Figure 1: The Project Approval Process
2.2 PROPOSAL APPLICATION AND SUBMISSION

Applicants are only required to submit a “Preliminary Proposal” prior to submitting a “Full Proposal”. The submission of “Preliminary Proposal” is via the MREPC ILF online system (mrepc.com/industrylinkagefund/ilfapplication/).

An applicant first needs to register in order to receive a login name and password, and thus get access to the proposal application for preparing, uploading and submitting a proposal.

All research projects are required to have an industry collaborator to be eligible for the funding. The project leader is required to identify an industry partner and specify the role of the industry partner in the application.

Applicant may approach the Secretariat of the MREPC Industry Linkage for assistance in indentifying potential industry partner.

Research proposal can be submitted throughout the year.

Contact Details of ILF Secretariat:

EMAIL: indlinkfund@mrepc.com
CHAPTER 3: PROJECT EVALUATION

The project evaluation consists of three (3) stages; screening, technical and financial evaluation, and proposal presentation, before it is approved by the ILF Committee.

The ILF Committee comprises of a Chairman and Committee members are an industry experts appointed by MREPC. However, additional experts, including international peer reviewers can be invited as and when necessary, to assist in the evaluation.

3.1 SCREENING STAGE

- All preliminary proposal submitted to MREPC will be screened by the Secretariat before submitting to the Committee to ensure that the project proposals are conforming to the requirements of the Industry Linkage Fund.
- The Committee will study the proposals based on the merits of the research objectives, appropriateness of research approach, proof of concept, the ability of researchers and the cost-effectiveness of the proposal.
- A project proposal will be evaluated based on the following weighted criteria.

<table>
<thead>
<tr>
<th>No.</th>
<th>Criteria</th>
<th>Weightage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Industrial Impact</td>
<td>40%</td>
</tr>
<tr>
<td>2</td>
<td>Research Quality</td>
<td>30%</td>
</tr>
<tr>
<td>3</td>
<td>Feasibility Study</td>
<td>30%</td>
</tr>
<tr>
<td></td>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

Rating will be given to each criteria based on a scale of 1 to 5:
(1 – very poor; 2 – poor; 3 – average; 4 – good; 5 – excellent)

The criteria of proposed research are as below.
- Industry Impact : Impact to the sectoral/industry from the proposed project
- Research Quality : Technical hurdles, previous work done, current ideas to support industrial impact
- Feasibility Study : Proof of concept, current research status, cost-benefit analysis

The grades for approval of project are as below.
- 60% and above : Project is eligible to proceed to full proposal application
- 59% and below : Proposal is rejected

3.2 TECHNICAL AND FINANCIAL EVALUATION STAGE

- A full project proposal submitted to MREPC will be evaluated in details, technically and financially by the Committee.
- The Committee will assess various technical aspects of the research proposal. It will also ensure the project leader and project team are technically competent, the project costs are fair, and there is the optimal utilisation of available research equipment and infrastructure.
- A project proposal will be evaluated based on the following weighted criteria.
<table>
<thead>
<tr>
<th>No.</th>
<th>Criteria</th>
<th>Weightage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Benefits to the Industry</td>
<td>40%</td>
</tr>
<tr>

<td>20%</td>
</tr>
<tr>
<td>3</td>
<td>Uniqueness/Innovation</td>
<td>10%</td>
</tr>
<tr>
<td>4</td>
<td>Financial/Cost-benefit</td>
<td>10%</td>
</tr>
<tr>
<td>5</td>
<td>Capability of Researcher</td>
<td>10%</td>
</tr>
<tr>
<td>6</td>
<td>Duration of Project</td>
<td>5%</td>
</tr>
<tr>
<td>7</td>
<td>Literature Search</td>
<td>5%</td>
</tr>
<tr>
<td></td>
<td><strong>Total</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

Rating will be given to each criteria based on a scale of 1 to 5: (1 – very poor; 2 – poor; 3 – average; 4 – good; 5 – excellent)

The grades for approval of projects are as below.

- 80% and above: Project is shortlisted for oral presentation
- 70% to 79%: Committee may request for proposal improvement for resubmission anytime of the year
- 69% and below: Reject

**Note:** Shortlisted projects will be invited for presentation to the Committee, as part of the proposal evaluation process.

### 3.3 PRESENTATION OF PROPOSAL STAGE

The Committee will make a final decision whether or not to approve a proposal upon reviewing the project during the presentation by project leader to the Committee. Any decision made by the Committee is final.
CHAPTER 4: ALLOCATION AND DISBURSEMENT OF FUND

4.1 QUANTUM OF FUNDING

The quantum of each project depends on the proposal received. The grant size for each project shall not be more than RM 300,000.

4.2 DISBURSEMENT OF FUNDING

The fund will be disbursed quarterly and the amount to be disbursed to the institutions is according to the project proposal and the progress of the project and upon approval by the Committee.

The first disbursement will be made to the institutions within one month from the date of the Industry Linkage Fund Agreement between to MREPC and the institution.

4.3 INSTITUTIONAL FINANCIAL PROCEDURE

Researchers must abide by all financial rules and regulations of the institutions especially those pertaining to procurement, disbursement, the appointment of research staff and intellectual property rights.
CHAPTER 5: PROJECT IMPLEMENTATION AND MONITORING

5.1 PROJECT IMPLEMENTATION AND MONITORING

- All projects must be conducted in accordance with the terms and conditions outlined in the Industry Linkage Fund Agreement and the project’s proposal as approved by the Committee.
- The Committee will closely monitor all project to ensure that they are carried out successfully. The project leaders are required to submit project reports for review by the Committee through the ILF Secretariat.
- **Progress Report** must be submitted within two (2) weeks after the end of every quarter of each year. These reports will be used to access the progress of the project. This will take into account of the milestones achieved and the amount of fund already disbursed. It is the project leader’s responsibility to ensure that the correct and updated information related to the milestone achievement and expenditure is reported. Any inaccuracy in reporting, delays in the project and failure to submit the progress report by the project leaders are serious omission that will result in the withholding of further fund disbursement or possible termination of the project.
- **Final Project Report** should be submitted within one (1) month after project completion date. All publications must acknowledge MREPC’s contribution as a fund provider. The Final Project Report requires the following information:
  
  i. Direct outputs of the project;
  ii. Extent of achievement of the original project objectives;
  iii. Technology transfer and commercialisation approach;
  iv. Benefits of the project, particularly project outputs and endorsement by the industry;
  v. Technical report of the project; and
  vi. Financial report of the project.

MREPC reserves the rights to call for periodic information on progress or to conduct site visits even after the project has been completed.

### APPENDIX II

**Table 1: CESS Paying Rubber Products**

The CESS paying rubber products are categorized according to the Harmonized Commodity Description and Coding System or HS Codes, as below.

<table>
<thead>
<tr>
<th>Products HS Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4007</td>
<td>Vulcanised rubber thread and cord.</td>
</tr>
</tbody>
</table>
| 4008             | Plates, sheets, strips, rods and profile shapes of vulcanised rubber than hard rubber, including:  
- Floor tiles and wall tiles  
- Water stop  
- Rubber Soling Sheet  
- Structural bearings, including bridge bearings  
- Rail Pad |
| 4009             | Tubes, pipes and hoses, of vulcanised rubber other than hard rubber with or without their fittings (for example, joints elbows, flanges) |
| 4010             | Conveyor or transmission belts or belting of vulcanised rubber |
| 401290300        | Replaceable tyre treads (pre-cured tread) |
| 4014             | Hygienic or pharmaceutical articles of vulcanised rubber other than hard rubber with or without fittings of hard rubber, including:  
- Sheath contraceptives  
- Teats for feeding bottles similar articles  
- Finger stalls  
- Hot water bottles |
| 4015             | Articles of apparel and clothing accessories (including gloves, mittens and mitts), for all purposes of vulcanised rubber other than hard rubber |
| 4016             | Other articles of vulcanised rubber other than hard rubber, including:  
- Padding for articles of apparel or clothing accessories  
- Floor coverings and mats  
- Eraser tips  
- Pipe seal rings  
- Boat or dock fenders  
- Parts and accessories of vehicles of headings 87.02, 87.03, 87.04, 87.05 or 87.11. Parts and accessories for vehicles of heading 87.12  
- Parts and accessories for vehicles of heading 87.13  
- Parts and accessories of roto chutes of heading 88.04  
- Rubber band  
- Structural bearings (including bridge bearings)  
- Rail pad  
- Rubber rollers  
- Other inflatable articles |
<p>| 4017             | Hard rubber (for example, ebonite) in all forms, including waste and scrap; articles of hard rubber |</p>
